Dear Josh:

I was sorry not to have been able to get up to New York to see all that versatility on display. It would have been fun.

I am sending you a copy of a paper that was part of the New York Academy Conferences that Strong got up. In it I have put together a number of ideas, some of which I think we discussed quite a few years ago. I thought you might like to see this and I would certainly be interested in your reactions.

It is too bad you resigned from the NSF panel, it did give us a chance to see each other.

Best regards to Esther.

Sincerely,

*Jack*
